**Subject:** DTSC inspector assigned to Exide

Per follow up request from Congressional call, Brian Wu (Hazardous Substance Scientist) accompanied John on his RCRA C inspection of Exide.

Ruth Williams-Morehead (Environmental Scientist) had inspected the Exide facility for past 17 years, and Brian was just assigned to be the new lead Exide inspector. They both seemed knowledgeable about RCRA and CA hazardous waste regulations, but clearly DTSC felt it was time for a personnel change. Brian may have more expertise or experience, but it was unclear what additional skills he would bring to the situation.

John – any other thoughts about the DTSC inspectors?
